Treść zapytania

FIRST STAGE - Request for proposal - RFP

**Bioequivalence studies for Dapagliflozin, 10 mg film-coated tablets**

**Background**

Tarchomińskie Zakłady Farmaceutyczne “Polfa” Spółka Akcyjna (Polfa Tarchomin S.A.) is one of the oldest and most experienced pharmaceutical companies in the Central Europe. Our history goes back to 1823. Nowadays there are four pillars of our generic business: Anti-infectives (oral and injectable forms), Alimentary Tract & Metabolism products, Central Nervous System drugs and Dermatologicals.

Currently, Polfa Tarchomin S. A. develops *Dapagliflozin* 5 mg and 10 mg film-coated tablets generic product, and we would like to invite you to prepare a proposal for bioequivalence studies as described below.

**The project is co-financed from the state budget under a grant awarded by the Medical Research Agency.**

**A. Project and product information**

**Tested product-** *Dapagliflozin, 10 mg film-coated tablets*

**Reference-** *Froxiga, 10 mg film-coated tablets*

**Registration-**

**Assumed study design** - Bioequivalence

**IMPD availability** - 10.2024

Currently, Polfa is developing three strengths 5 mg and 10 mg of Dapagliflozin, film-coated tablets. However, due to the composition proportionality and the PK linearity, Polfa plan to use a biowaiver for lower power.

We plan Randomized, Open-label, Single Dose, Two-treatment, Two-period, Cross-over, Pivotal Bioequivalence

Study Comparing Dapagliflozinum (tested product) and Froxiga 10 mg film-coated tablets (reference product) under fast condition.

SmPC of Froxiga, 10 mg coated tablets is available on website:

[https://www.ema.europa.eu/en/documents/product-information/forxiga-epar-product-information\\_en.pdf](https://www.ema.europa.eu/en/documents/product-information/forxiga-epar-product-information_en.pdf)

This is just for information purposes.

We are interested in full service for one single dose bioequivalence study including the clinical conduct, bioanalytical part, data management, medical writing, project management, RA/EC submission etc.

Please provide at least two sample size options, i.e. assuming  $T/R \pm 5-7,5\%$ .

If more data on ISCV appear in the literature in the future, the sample size may change.

### **Proposal for bioequivalence studies**

The offer should contain at least:

1. information about the proposed studies: study design, number of subjects, number of sample per subject per period, total PK samples, analytical method
2. proposal of timelines assuming the above IMPD availability, duration of the study from start of documentation preparation until draft study report
3. costs calculations for:
  - a. clinical part (preparation of the study design according to EU requirements and essential documentation for RA/EC submission, submission to RA/EC including fees, clinical conduct including all medical and safety laboratory assessments and PK sampling and remuneration to subjects, data management and integrated study report (ICH-E3), QA during the study);
  - b. analytical part (method development and validation, if applicable, PK samples analysis including ISR, reports);
  - c. PK and statistical part (pharmacokinetic and statistical analysis and report);
  - d. other costs needed (for example monitoring, PK and documents transport, analytical reference standards, overheads etc.). Please list these costs if needed.
